

PF ASSIGNMENT

NAME: AMNA KHAN

ROLL NUMBER: 26K-3091

CLASS: BSE-1C

TASK:01

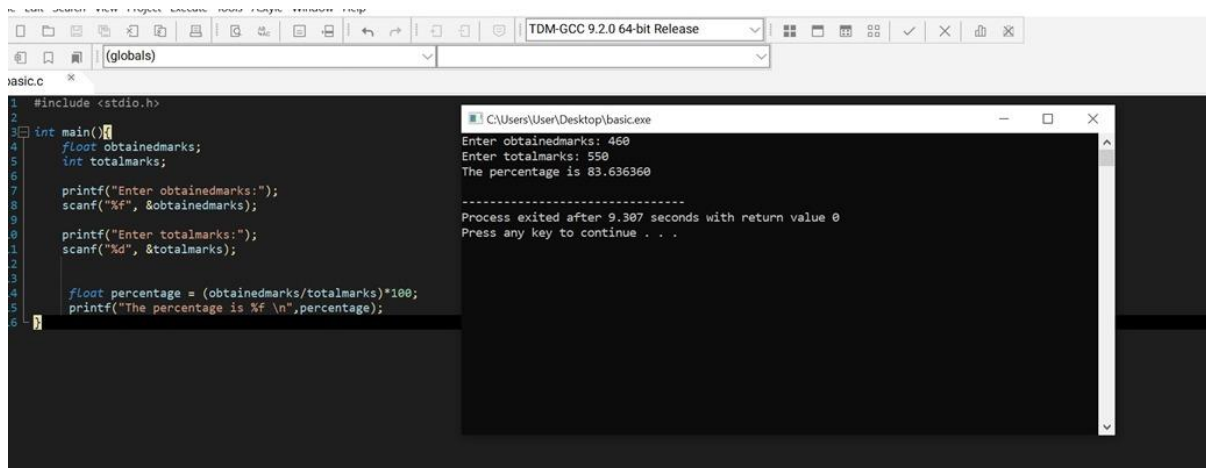

The screenshot shows a C program in a text editor and its execution in a terminal window. The code calculates the sum of two numbers entered by the user. The terminal output shows the user entering 5 for both numbers, resulting in a sum of 10.0.

```
1 #include <stdio.h>
2
3 int main(){
4     float number1;
5     float number2;
6
7     printf("Enter a number1:");
8     scanf("%f", &number1);
9
10    printf("Enter a number2:");
11    scanf("%f", &number2);
12
13    float sum = number1 + number2;
14    printf("The sum of %.1f and %.1f is %.1f", number1, number2, sum);
15 }
```

Enter a number1: 5
Enter a number2: 5
The sum of 5.0 and 5.0 is 10.0

Process exited after 5.226 seconds with return value 0
Press any key to continue . . .

TASK:02

The screenshot shows a C program in a text editor and its execution in a terminal window. The code calculates the percentage of obtained marks out of total marks. The terminal output shows the user entering 460 for obtained marks and 550 for total marks, resulting in a percentage of 83.636360.

```
1 #include <stdio.h>
2
3 int main(){
4     float obtainedmarks;
5     int totalmarks;
6
7     printf("Enter obtainedmarks:");
8     scanf("%f", &obtainedmarks);
9
10    printf("Enter totalmarks:");
11    scanf("%d", &totalmarks);
12
13    float percentage = (obtainedmarks/totalmarks)*100;
14    printf("The percentage is %f \n",percentage);
15 }
```

Enter obtainedmarks: 460
Enter totalmarks: 550
The percentage is 83.636360

Process exited after 9.307 seconds with return value 0
Press any key to continue . . .

TASK:03

```
#include <stdio.h>

int main(){
    int number;

    printf("Enter a number:");
    scanf("%d", &number);

    if(number % 2 == 0){
        printf("Your number is even!");
    }
    else{
        printf("Your number is odd!");
    }
}
```

Enter a number: 50
Your number is even!

Process exited after 6.164 seconds with return value 0
Press any key to continue . . .

TASK:04

```
#include <stdio.h>

int main(){
    int age;

    printf("Enter your age:");
    scanf("%d", &age);

    if(age >= 18){
        printf("You are eligible to vote!\n");
    }
    else{
        printf("You are not eligible to vote!\n");
    }
}
```

Enter your age: 21
You are eligible to vote!

Process exited after 2.625 seconds with return value 0
Press any key to continue . . .

TASK:05

```
#include <stdio.h>

int main(){
    int marks;

    printf("Enter your marks:");
    scanf("%d", &marks);

    if(marks >= 80){
        printf("You got A grade");
    }
    else if(marks >= 60){
        printf("You got B grade");
    }
    else{
        printf("You got C grade");
    }
}
```

Enter your marks: 60
You got B grade

Process exited after 18.72 seconds with return value 0
Press any key to continue . . .
